

# ACCESSIBILITY IN BELCEKIZ BEACH CLUB

- We have 3 disable rooms in our hotel for whom with disabilities. And those rooms have emergency buttons to use in case of emergency. It is possible for our guests with disabilities to access every area in our hotel, but there are ramps that they can use in transitions between general areas. We have toilets designed for our guests with disabilities in common areas within the hotel. There are embossed keys in our lift. The width of our lifts is suitable for wheelchairs. We have a wheelchair, pool lift and floating sun loungers that can be used according to need and demand. Employment and activities for disabled personnel are included in our hotel. As Belcekız Beach Club, we are ready to provide service with dedication and meet the needs of our guests with disabilities for a comfortable holiday experience during their stay.
